Danger!

Journalist: Why do some people do dangerous activities and jobs?

Dr Fred: It is because there are two elements in danger: one is fear, the other is the need to defeat fear. When they defeat fear, people feel a physical reaction.

Journalist: So, do we always need to do dangerous activities to get this feeling?

Dr Fred: Not at all! Take a journalist, a football player or even an artist. They probably do not have to take physical risks. **But** the artist, the rock climber or the mountain biker feel the same physical enjoyment as a footballer after scoring a goal.
