

Name:

10th grade

Comprehension: Question number one: Read the following texts carefully: (14 points)

They are in California, USA. They are the oldest trees alive in the world today. Some are more than 4,000 years old. The rings in their wood show how much they have grown. Scientists use these rings to see how the world's climate has changed. They grow very slowly: about fourteen meters in 3,000 years!

They are the oldest species of tree in the world. Fossilized remains show they existed 110 million years ago. They grew in the rainforest before Australia became a continent. **They** grew when there were dinosaurs on Earth. The climate was different then.

1. Now answer the questions that follow it: (2 points each)

1. According to the text, rings used for two things write them down?
