(3) عدد الاسئلة: (5)، وعدد الصفحات: (5).

Section One:-

Read the following texts carefully, and then in your ANSWER BOOKLET answer all the questions that follow it. Your answer should be based on the text.

Everyone knows that the internet connects people, but now it does more than that – it connects objects, too. These days, computers often communicate with each other, for example, your TV automatically downloads your favourite TV show, or your 'sat nav' system tells you where you are. This is known as the 'Internet of Things', and there's a lot more to come.

In just a few years' time, experts say that billions of machines, will be connected to each other and to the internet. As a consequence, computers will increasingly run our lives for us. For example, your fridge will know when you need more milk and add it to your online shopping list, your windows will close if it is likely to rain; your watch will record your heart rate and email your doctor; and your sofa will tell you when you need to stand up and get some exercise!

Many people are excited about the 'Internet of Things'. For them, a dream is coming true. They say that our lives will be easier and more comfortable. However, **others** are not so sure. They want to keep control of their own lives and their own things. In addition, they wonder what would happen if criminals managed to access their passwords and security settings. The dream could easily become a nightmare!

Question number one:

1. What does the '**Internet of Things**' mean?
2. Find two words in the first paragraph which have the same meaning as '**speak to**'.
3. How will the '**Internet of Things**' help you to keep fit, according to the text?
4. What does the word '**others**' in bold in the third paragraph refer to?.....
5. Watches in the future can help people in two ways. Write down these two ways.
6. the writer states several examples about the internet of things. Mention two examples.
7. some people are worried about the internet of things for two reasons. Write them down.
